## QUARANTINE SITES REMOTE LOGIN SOP

### Definition

Remote Login is system functionality that enables facilities to Log / Register samples at the facility level onto the testing lab's LIMS, Monitor testing progress, view results and retrieve historical results.

### Background

#### Objective of COVID-19 remote login

- To improve quality of COVID-19 data entry.
- To reduce results turnaround time (From sample collection to results dispatch back to the requesting facility).
- To make results available to clinicians in a timely manner hence improving patient care.
- To reduce transcription and rejection errors.

### HOW TO LOGIN

Open your browser ( Mozilla Firefox / Google chrome) and on the address bar type the link to the testing lab the samples will be shipped to.

(The remote login link will vary depending on the testing lab the samples will be shipped to.)

e.g. if KEMRI NAIROBI type

<https://kemrinairobi.nascop.org>

**N/B For accessing KNH LAB , STRICKLY USE MOZILLA FIREFOX**
